**RE: APSC Certification of Eligibility to Receive High Cost Support
Pursuant to 47 C.F.R. §54.314; APSC Docket 25980.**

Dear Mr. Thomas:

In conjunction with the Alabama Public Service Commission's (the "Commission") annual certification requirements, please find attached hereto for electronic filing Valley Telephone Co., LLC's (the "Company") certification that it is eligible to continue to receive federal high cost support for high-cost universal service support. The original and one copy will be delivered to the Commission. If any additional information is required, please contact Arlene Morgan at 706-645-8116.

Very truly yours,

Felix L. Boccucci, Jr.
Vice-President Regulatory Affairs
Knology, Inc. parent company of
Valley Telephone Co., LLC

Enclosure

CERTIFICATION

In its December 20, 2001 and September 28, 2010 Orders in APSC Docket 25980, this Commission determined that it could best meet its monitoring and certification obligations by requiring the "rural LEC Cost Companies" to file with the Commission a copy of their supporting annual interstate cost separation study, annual USF-HCLS filing and estimated USF-LSS filing for review and each of the "rural LEC Average Schedule Companies" to file with the Commission a copy of NECA's proposed annual USF-HCLS and USF-LSS amounts for review. Pursuant to the Order, Valley Telephone Co., LLC (the "Company") has previously provided the Commission with a copy of NECA's proposed annual 2011 USF-HCLS and 2011 USF-LSS amounts.

The Company further certifies that it will only use the federal high-cost support it receives during 2011-2012 for the continued provision, maintenance and upgrading of facilities and service for which such support is intended as described in 47 C.F.R. § 54.101. Those services, which are available to any customer in the Company's service area are: single-party voice grade access to the public switched network, unlimited local usage, dual-tone multi-frequency signaling or its functional equivalent, access to emergency services, including 9-1-1 service or enhanced 9-1-1 service, access to operator service, access to interexchange service, and access to directory assistance, and toll limitation for qualifying low-income customers.

The Company respectfully requests that the Commission notify the FCC prior to October 1 of this year that the Company is eligible to receive federal high-cost support in 2012. Any questions regarding this submission or the underlying documentation previously submitted to the Commission should be directed to Arlene Morgan at (706) 645-8116.

Respectfully Submitted,

VALLEY TELEPHONE CO., LLC

RE: Docket No: 25980 Self-Certification of Eligibility of Budget PrePay, Inc. to receive Federal Universal Service Funds in Study area Code 259009 for the First through Fourth Quarters of 2011. 47 CFR 54.314: 47 USC 254(e).

Dear Mr. Thomas,

Pursuant to 47 CFR 54.314, state commissions must file an annual certification with the Federal Communications Commission ("FCC") and the Universal Service Administrative Company ("USAC") stating that all federal high-cost support provided to rural incumbent local exchange carriers and/or eligible telecommunications carriers has been used only for the provision, maintenance, and upgrading of facilities and services for which the support beginning January 1 of each year, the Commission must file its annual certification on or before October 1 of the year before.

In accordance with 47 CFR 54.314, this letter is to request that the Alabama Public Service Commission ("Commission") file a certification with the FCC and USAC, stating that all federal high-cost support provided to Budget PrePay, Inc. has been used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.

In support of this request, attached hereto as "Attachment 1" is an affidavit, executed by an officer of Budget PrePay, Inc. attesting that the federal high-cost support to Budget PrePay, Inc. has been used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.

In order for Budget PrePay, Inc. to receive support for the first, second, third, and fourth quarters of 2012, Budget PrePay, Inc. respectfully requests that the Commission notify the FCC and USAC no later than October 1, 2011, that all federal high-cost support to Budget PrePay, Inc. has been used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.

Sincerely,

A handwritten signature in black ink, appearing to read "L. Taylor".

Re: Docket No. 25980 Certification of Eligibility of Nexus Communications, Inc., d/b/a TSINexus, Inc. to Receive Federal Universal Service Funds in Study Area 259909 for the First through Fourth Quarters of 2011.

Dear Mr. Thomas:

Nexus Communications, Inc., d/b/a TSINexus, Inc. ("Nexus" and the "Company") hereby provides for filing the attached letter certifying continued eligibility by the Company to receive federal high cost universal service support in the first, second, third, and fourth quarters of 2011 ("Letter"). As demonstrated in the Letter, the Company is in compliance with Section 254(e) of the Communications Act of 1934, as amended, and the relevant rules and regulations of the Federal Communications Commission ("FCC").¹ The Letter also contains information regarding the amount and allocation of support received in fiscal year 2010.

The Certification was filed electronically on May 25, 2011. As required, an original and one (1) copy of the Letter are provided with this filing. In addition an additional "Stamp and Return" copy is being provided. Please indicate the date and time of filing on the enclosed "stamp and return" copy and forward the copy to my attention using the enclosed self addressed stamped envelope.

Please forward any correspondence regarding this matter to the undersigned.

Respectfully,

Re: Docket No. 25980 Certification of Eligibility of Nexus Communications, Inc., d/b/a TSINexus, Inc. to Receive Federal Universal Service Funds in Study Area 259909 for the First through Fourth Quarters of 2011.

Dear Mr. Thomas:

Nexus Communications, Inc., d/b/a TSINexus, Inc. ("Nexus" and the "Company") hereby provides the required certification and requested information regarding the amount and allocation of support received.

CERTIFICATION

On behalf of the Company, I, Steven Fenker, an officer of the Company with substantial knowledge of the Company's operations, do hereby certify under penalty of perjury that the following is true and accurate to the best of my knowledge and belief:

1. I am President of the Company:
2. The company is certified as a Competitive Eligible Telecommunications Carrier ("ETC") in the exchanges of ETC certified non-rural Incumbent LEC, BellSouth Telecommunications, Inc., Alabama ("AT&T Alabama");
3. As such, the Company is eligible to receive disbursements from the federal Universal Service Fund in a manner and amount equal to the disbursements received by AT&T Alabama as prescribed by the Federal Communications Commission; and
4. The Company will utilize all federal High Cost Support only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, consistent with 47 U.S.C. § 254(e) of the Telecommunications Act of 1996.

Respectfully,

A handwritten signature in black ink, appearing to read 'S. Fenker', written over a horizontal line.

Steven Fenker
President
Nexus Communications, Inc., d/b/a TSINexus

REQUESTED INFORMATION

1. Amount of Support the Company Received for the Past Fiscal Year

As a competitive ETC, the Company is eligible to receive federal high-cost universal service support ("USF") in a manner and amount equal to the support received by the Incumbent ETC, which in this case is Bellsouth Telecommunications, Inc., Alabama (AT&T Alabama). This support is divided into seven (7) categories or mechanisms; High Cost Model (HCM) support, High Cost Loop (HCL) support, Safety Net Additive (SNA) support, Safety Valve Support (SVS), Intrastate Access Support (IAS), Local Switching Support, (LSS), and Interstate Common Line Support (ICLS). Each of these mechanisms was created by the Federal Communications Commission ("FCC") in conjunction with the Federal-State Joint Board on Universal Service allowing representatives from the State Commissions to be involved in the development of these mechanisms through their active participation and representation in the Joint Board process.

All of these mechanisms are administered through the Universal Service Administration Company ("USAC"). USAC, as a private, not-for-profit corporation, is responsible for providing every state and territory of the United States with access to affordable telecommunications service through the federal USF program. USAC has contracted with the National Exchange Carrier Association, Inc. ("NECA") to assist in the data collection necessary for the remittance of universal service funds. This detailed data, submitted by the Incumbent LECs to NECA and the FCC, is used in the USF calculations and contains regulated financial inputs into the algorithm and includes the number of loops that will potentially receive universal service support.

In order for ETCs to receive high cost support, a State that has jurisdiction over the carriers must certify annually that "all federal high-cost support provided to such carriers within that State will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended".¹ The certification must be filed with the FCC and USAC. Section 54.314(d)(1) of the FCC's Rules provides that "carriers for which certifications are filed on or before October 1 shall receive [USF]...in the first, second, third, and fourth quarters of the succeeding year."² For fiscal 2010, the Company did not receive or apply for support from any of the high cost mechanisms for Study Area Code 259909.³

2. ALLOCATION OF HIGH COST FUNDS

As previously stated, a competitive ETC is eligible to receive High Cost USF support, in the study area for which it is certified, in a manner and amount equal to the support received by the Incumbent LEC ("ILEC"). Recovery of these funds is determined through "cost studies" provided by the Incumbent LEC and is based on the financial statements of the ILEC. NECA and its auditors, who must attest to the validity and integrity of the same, review the cost studies. The information provided in response to all of the USF mechanisms utilizes FCC accounts for regulated cost and must be in compliance with FCC rules in Parts, 32, 36, 54, and 64.

¹ 47 C.F.R. § 54.314(a).

² 47 C.F.R. § 54.314(d)(1). In promulgating its certification requirements, the FCC noted that October 1st deadline was necessary to allow sufficient time for USAC to process the certifications and provide the FCC with an estimate of the level of high-cost support that will be required by USAC's November 1st deadline.

³ Source USAC High Cost Disbursement Data report.

a. High Cost Model Support (HCM)

High Cost Model (HCM) support, also known as forward-looking support, is available to competitive carriers providing service in the eligible wire centers of non-rural Incumbent carriers and designated as ETCs by the state commission or the FCC. Based on a forward-looking economic cost model, High Cost Model support is distributed at the wire center level and keeps the cost for telephone service comparable in all areas of the state. The model generates the statewide average cost per line, which is then compared to the national average cost per line. If the statewide average cost per line exceeds the national average cost per line, the state qualifies for HCM support. Currently, AT&T Alabama and NEXUS are both eligible to receive HCM support. Although eligible, Nexus is not currently applying for or receiving High Cost Model support. As required, the support, if and when received, will be used for the provision, maintenance, and upgrade of facilities and services for which the support is intended allowing consumers, residing in lower density exchanges, the ability to subscribe to services at rates comparable to the rates paid by consumers in the more densely populated exchanges.

b. HIGH COST LOOP SUPPORT (HCL)

High Cost Loop (HCL) support is available to competitive carriers providing service in the areas of rural price cap and rate-of-return Incumbent carriers and designated as ETCs by the state commission or the FCC. HCL support provides support for the "last mile" of connection for Exchange Carriers in service areas where the cost to provide service exceeds 115% of the national average cost per line and is subject to an annual indexed cap. AT&T Alabama is not classified as a rural price cap carrier. As such, neither AT&T Alabama nor Nexus is eligible to receive HCL support.

c. Safety Net Additive Support (SNA)

Safely Net Additive (SNA) support is a sub-component of High Cost Loop support and is available to competitive carriers on the same basis as High Cost Loop Support. Safety Net Additive was established in the FCC's Rural Task Force Order⁴ and is intended to provide rural Incumbent carriers with additional incentives to invest in their networks. To receive support, a rural carrier must show that growth in Telecommunications Plant In Service (TPIS) per line is at least 14% greater than the study area's TPIS per line for the prior year. AT&T Alabama is not classified as a rural price cap carrier. As such, neither AT&T Alabama nor Nexus is eligible to receive SNA support.

⁴ FCC 01-157 released may 23, 2001

a. Safety Valve Support (SVS)

Safety Valve Support (SVS) is also a sub-component of High Cost Loop support and is support "above the cap" that is available to rural Incumbent carriers that acquire high-cost exchanges and make substantial post-transaction investments to enhance these exchanges. AT&T Alabama is not classified as a rural price cap carrier. As such, neither AT&T Alabama nor Nexus is eligible to receive SVS support.

b. Interstate Access Support (IAS)

Interstate Access Support (IAS) is available to competitive carriers operating in the service areas of price-cap Incumbent carriers and designated as ETCs by the state commission or the FCC. Interstate Access Support helps to offset interstate access charges in order to reduce the cost of long distance charges incurred by end users and is targeted to zones with low customer density. The FCC removed implicit IAS support for Interstate access charges and established an explicit IAS component for price-cap carriers to replace the implicit support previously collected through interstate access charges. Both AT&T Alabama and Nexus are eligible to receive Interstate Access Support on service lines in areas where the companies are unable to recover permitted revenues from the newly revised subscriber line charges. Although eligible, Nexus is not currently applying for or receiving High Cost Model support.

c. Local Switching Support (LSS)

Local Switching Support (LSS) is available to competitive carriers providing service in areas of rural Incumbent carriers serving 50,000 lines or fewer and designated as ETCs by the state commission or the FCC. Local Switching Support is designed to help carriers recoup some of the high fixed switching cost of providing service to fewer customers, thereby keeping rates comparable to the rates charged in the more densely populated urban areas. AT&T Alabama is not classified as a rural Incumbent carrier and serves in excess of 50,000 lines throughout the state of Alabama. As such, neither AT&T Alabama nor Nexus is eligible to receive LSS.

d. Interstate Common Line Support (ICLS)

Interstate Common Line Support (ICLS) is available to competitive carriers providing service in the area of rate-of-return Incumbent carriers and designated as an ETC by the state commission or the FCC. Based on annual projected data, ICLS helps to offset interstate access charges and is designed to permit a rate-of-return carrier to recover its common line revenue while ensuring that its subscriber line charges ("SLCs") remain affordable to its end users. AT&T Alabama is not classified as a rate-of-return carrier. As such, neither AT&T Alabama nor Nexus is eligible to receive ICLS support.

Walter L. Thomas, Secretary
Alabama Public Service Commission
May 25, 2011

**THE COMPANY RESPECTFULLY SUBMITS THAT IT MEETS THE QUALIFICATIONS FOR CONTINUED
CERTIFICATION FOR STUDY AREA CODE 259909**

The Company respectfully submits that, given the number and nature of the requirements for support already in place, the Commission may lawfully and appropriately rely upon this self-certification by the Company. The requirements, procedures, and processes to which the Company adheres, as set forth above, provide the necessary and sufficient basis for the Commission to provide certification to USAC and the FCC, and to thereby ensure that the Company and its customers will not be deprived of the USF funding to which the Company and its customers are lawfully entitled to possess. Essentially, under the existing rules and process discussed above, the federal support funds available to the Company and other ETCs are, in fact, an integral part of the recovery of expenditures incurred in the provision, maintenance, and upgrading of its provision of universal service. The processes described above constitute the Company's plan with respect to the receipt and utilization of federal universal support, upon which the Company may depend on to provide its customers with quality telephone service at competitive prices. Furthermore, the Company attests, per the above certification, that it will use federal universal support only for its intended purpose.

In many respects, the certification process is similar to the certification process, which the Commission uses in its initial designation of eligible telecommunications carriers, thereby fulfilling its right, as established by the Telecommunications Act of 1996, to designate a carrier as an ETC.

Accordingly the grant of this request for certification is consistent with past practice and procedure. The very same procedure and process undertaken by the Commission that is valid for designation of eligibility to receive funds is also rationally valid as the basis for the necessary certification that the Company will use those funds, once received, for the purposes for which they are intended.

The Company, as discussed above and pursuant to the above certification, represents to the Commission that it adheres to and complies with all required processes, and that any expenditures of USF funds will be consistent with the applicable rules and foster the provision of facilities and services for which the funding is intended.

Please contact the undersigned with any questions if further information is required.

Respectfully Submitted,

Steven Fenker

Re: Docket No. 29540 Certification of Eligibility of Troy Cablevision, Inc. to Receive Federal Universal Service Funds in Study Area 259025 as it applies to the First through Fourth Quarters of 2012.

Troy Cablevision, Inc. ("Company") hereby provides the required certification and requested information regarding the use of support funds to be received.

On behalf of the Company, I, William H. Freeman, an officer of the Company with substantial knowledge of the Company's operations, do hereby certify under penalty of perjury that the following is true and accurate to the best of my knowledge and belief:

1. I am President of Troy Cablevision, Inc.
2. The company is certified as a Competitive Eligible Telecommunications Carrier ("ETC") in the exchanges of ETC certified non-rural Incumbent LECs, BellSouth Telecommunications, Inc. d/b/a AT&T Alabama; CenturyTel of Alabama, LLC; and Butler Telephone Company;
3. As such, the Company is eligible to receive disbursements from the federal Universal Service Fund in a manner and amount equal to the disbursements received by BellSouth Telecommunications, Inc. d/b/a AT&T Alabama; CenturyTel of Alabama, LLC; and Butler Telephone Company as prescribed by the Federal Communications Commission; and
4. The Company will utilize all federal High Cost Support only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, consistent with 47 U.S.C. § 254(e) of the Telecommunications Act of 1996.
5. A copy of the Troy Cablevision, Inc. Five Year Plan for Use of Funds from USF is attached.

Respectfully Submitted,

William H. Freeman
President

Troy Cablevision, Inc.
5 Year Plan for Provisioning and Improving Telephone Services Using
Universal Service Funds in the State of Alabama
2012 thru 2017

Troy Cablevision, Inc. has been involved in building out and upgrading facilities in and around the Troy video franchise areas for the past 5 years. We have purchased a fully functional Class 5 MetaSwitch and are currently providing video, data and competitive voice services in the following Alabama rate centers where we have video franchise operations: Banks; Brantley; Brundidge; Goshen; Luverne; Elba; Ozark; Daleville and Troy.

Through agreements with neighboring cable television companies, we are providing competitive voice service to customers in the Opp; Dozier; Red Level; Andalusia; and Gantt rate centers:

We have established a voice hub site in Troy, Alabama for all of the rate centers we serve and are currently building out the Daleville, Elba and Ozark franchises with fiber to the home. We built a redundant OC48 ring with a 10 Gig fiber transport network overlay from Troy through Andalusia, Brantley, Luverne and back to Troy; established fiber connections with Mon-Cre Telephone Cooperative, AT&T, CenturyTel, Camellia Communications and are building a fiber connection to Butler Telephone Company (TDS).

Our plans for the future include completing a 10 Gig DWDM fiber ring from Troy to include: Brundidge, Arton, Ozark, Newton, Pinckard, Midland City, Daleville, Clayhatchee, Level Plains, Enterprise, New Brockton, Elba, Brantley, and Luverne back to Troy; this ring would have core transport laterals to AT&T's CO in Montgomery and CenturyLink's CO in Dothan. In addition, rural fiber laterals are being built to include the towns and communities of: Skipperville, Victoria, Tarentum, Monticello, Shellhorn, Petrey and Honoraville. We expect to complete this configuration by November, 2013.

Troy Cablevision, Inc. plans to continue using Universal Service Funds for the upgrade and maintenance of facilities related to voice telephone services.

all Rural and Non-Rural Carriers

Dear Ms. Majcher:

Attached hereto you will find a copy of the Certification which the Alabama Public Service Commission (the "APSC") dispatched to the Federal Communications Commission (the "FCC") concerning the eligibility of Alabama Non-Rural Carriers BellSouth Telecommunications, LLC, d/b/a AT&T Alabama ("AT&T") and CenturyTel of Alabama, L.L.C., d/b/a CenturyLink ("CenturyLink"), for year 2012 federal high-cost universal service funding. The APSC also certified within that filing the eligibility of Alabama's Rural Carriers for year 2012 federal high-cost universal service funding. Alabama's Rural Carriers are identified individually in the Certification filed with the FCC.

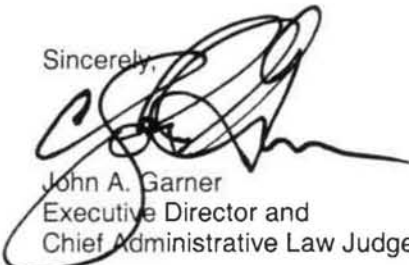

You will also note that the APSC certified the eligibility of Hayneville Fiber Transport, Inc., d/b/a Camellia Communications ("Camellia"); Budget PrePay, Inc. ("Budget"); TSI Nexus, Inc. ("TSI Nexus"); and Troy Cablevision, Inc. ("Troy Cablevision") (collectively "Alabama's non-incumbent LEC ETCs") to receive federal high cost universal service funding for 2012.

As required by 47 C.F.R. § 54.316, the APSC also certified to the FCC that the residential rates of Alabama's non-rural Incumbent LECs AT&T and CenturyLink in rural areas of Alabama are reasonably comparable to urban rates nationwide. The APSC's certification in that regard was premised on the fact that the rural residential rates of BellSouth and CenturyLink were well below the FCC's nationwide urban benchmark of \$36.52.

Please date stamp the extra copy of this letter which is enclosed herein and return it in the stamped, self-addressed envelope which is also enclosed herein.

Thank you for your assistance in this matter.

Sincerely,

John A. Garner
Executive Director and
Chief Administrative Law Judge
